

Corporate Health and Safety Advisor

Salary: £35,745 - £38,890

37hrs

Based at Mold, Flintshire with Agile Working

Are you a qualified Health and Safety Practitioner? Bring your wealth of knowledge and experience and join our friendly team providing advice on all types of health and safety matters. Let's work together to ensure the health safety and welfare of all our workforce.

This exciting opportunity is for an experienced health and safety practitioner working as part of the Corporate Health and Safety Team. We are looking for someone who is flexible, enthusiastic and able to use their initiative, as well as work across professional boundaries and develop positive relationships with internal and external partners.

Proven health and safety training and presentation skills as well as a NEBOSH Diploma in Occupational Health and Safety or equivalent health and safety qualification is essential. Your ability to demonstrate evidence of continued professional development will be needed and in return we can offer skills development and wide ranging experience, as part of high performing team.

Our policies facilitate work life balance and we consider part time, job share or flexible working. Our generous local government benefits include pension scheme. We hope you agree this is a great opportunity to make your mark, please see our job description & person specification.
